# My Obsession

## Cheap Trick

Pour out your heart
The feelings never fade away
So where are you now
I loved you more than I can say
You wouldn't see couldn't touch can't believe it's trueYour love feels like home
You're my obsession
All the things we did
What's left is just a photograph
Everything I held so close
Was never meant to lastYou're in my heart
It's never gonna fade away
Your love feels like home
You're my obsessionIf I could find all the dreams I've made
I'd turn the clock back to yesterday
To hold onto what I got with you
Shine bright like all the stars
Unlock every dream I've made
I'd turn tomorrow into yesterday
All the things we didWhat's left is just a photograph
You wouldn't see couldn't touch can't believe it's true
Your love feels like home
You're my obsession
