

Easy to Believe

Sarantos

Verse 1 Staring at the ocean, heart really feels broken

The night looks down at me, everything feels like a distant memory

It was so long ago, I felt cold and so alone

Buried inside of me, but the words still got out of me Verse 2 That one fateful night, you made it all feel right

The way you looked up to me, the feeling just seemed

Yes I went down that road, but quickly realized I did not belong

You made it easy to believe Chorus 1 How easy would things be?

It'd be so easy to believe

In you I could truly see

My dream turned to reality Funny how quickly things can change

What a way to come undone

I carelessly believed

It was easy to believe! Verse 3 That one beautiful morning, you made me wanna stay

The way you played with my hair, you really seemed to care

I fell, hard for you

I believed it was meant to be, that fate would be so easy Chorus 2 How easy would things be?

It'd be so easy to believe

In you I could truly see

My dream turned to reality Funny how quickly things can change

What a way to come undone

I carelessly believed

It was easy to believe! Instrumental Easy to, believe

So easy to, believe Chorus 3 How easy would things be?

It'd be so easy to believe

In you I could truly see

My dream turned to reality Funny how quickly things can change

What a way to come undone

'Cuz I carelessly believed

You were so damn easy to believe...
