

That's the Thing About Love

Martina McBride

It'll drive you
Drive you crazy
Leave you pacing the floor
Till you can't stand no more, Won't it baby Can you swear you gonna quit it
So you call it a day,
Blow it off,
Walk away
Then you miss it That's the thing about love
That's the thing about love
Can't take any more
But you can't get enough
Makes you feel so high
Makes it hurt so much
There's no way around it
Can't live without it
That's the thing about love, yea-a-ah It'll make you say things
You can't believe your sayin'
Like come closer,
Move over,
I need you,
I want you,
I hate you
It's bad when its bad
And its as good as it gets
The more you think about it
the less it makes sense Cause, that's the thing about love
That's the thing about love
Can't take any more
But you can't get enough
Makes you feel so high
Makes it hurt so much
There's no way around it
Can't live without it
That's the thing about love, yea-a-ah It'll drive you,
drive you crazy
Oh, but ain't it,
ain't it beautiful, baby That's the thing about love
That's the thing about love
Can't take any more

But you can't get enough
Makes you feel so high
Makes it hurt so much
There's no way around it
Can't live without it
Cause, that's the thing about love
That's the thing about love
Can't take any more
But you can't get enough
Makes you feel so high
Makes it hurt so much
There's no way around it
Can't live without it
That's the thing about love, love, love, hey yeah
That's the thing about love, oh yeah
