Wine Lips

Lydia Loveless

Ain't there a corner around the corner
I got a bad idea, no
Ain't there somewhere where you and me can be alone
Honey, this isn't a party it's a chaperoneThat's all I really wanna do
is be somewhere that's just for me and you
that's all I really wanna do
but I kept losing my grip on youWine lips, wine lips
I want to kiss your wine lips
wine lips, wine lips
I want to kiss your wine lipsWhy don't you smile at me like that no more
Can't you see I'm on fire oh
why don't you think that I'm a fun-loving gal
Honey, I'm still gonna be the girl that you dream aboutThat's all I really wanna do
Is be somebody that you can talk to
That's all I really wanna do
But I went too far like I always dowine lips, wine lips
I want to kiss your wine lips
wine lips, wine lips
I want to kiss your wine lipsI got a bad idea
and that's all I really wanna do
is be somebody that you can talk to
that's all I really wanna do
Go tell your momma that my french has finally improvedThose wine lips, wine lips
I want to kiss your wine lips
Wine lips, wine lips
I want to kiss you
