Never Be the Same

Zach Nelson

(Never be the same, never be okay)Never thought that I'd believe
In love at first sight
But when I met you
Girl, it felt so right
You made me wonder
How I could ever be alone
After all those late nights
Talking on the phoneFrom our first kiss to our last touch
I never knew I'd miss you so much
After all I guess the truth is
I'll never be the same never be okay
From our first kiss to our last touch
I never knew I'd miss you so much
After all I guess the truth is
I'll never be the same never be okay
(Like ooh ooh)
Never be the same never be okayNever thought that I'd see
Our relationship die
But then winter
It became cold as ice
It made me wonder
If I could make it on my own
I thought about it then
And this is what I knowFrom our first kiss to our last touch
I never knew I'd miss you so much
But after all I guess the truth is
I'll never be the same never be okay
From our first kiss to our last touch
I never knew I'd miss you so much
But after all I guess the truth is
I'll never be the same never be okayI never thought it'd be over
Never thought it'd be over
Never thought it'd be over
I never thought we'd be over
Never thought we be over
Never thought we'd be overFrom our first kiss to our last touch
I never knew I'd miss you so much
But after all I guess the truth is
I'll never be the same never be okay

I'll never be okay
