All Over Me

Stacye Branche'

All Over Me

Under and over sheets
our two bodies they meet
You get me so excited
your mouth everywhere I want it
youâ€™re moving down my body
Your mouth makes me delighted
You make me climb the walls
Your tongue and figures all

Chorus
Feeling You all over my body
hands moving
bodies growing
to the rhythm of your heart beats
bodies glistening
Sweat is dripping

Verse
Slide up an in me
giving all of you to me
sound of your voice too soothing
your stock get to grooving
you fitting me just right
I grab I hold on tight
Going once going twice
Four and five by the end of the night

Chorus

Bridge

You all over me
You give me love so freely
Without limitation
there is no hesitation
Loving you in every way
In mind and lovers play

You take me to my peak
Ecstasy unleashed
