Shadowless

Toni Braxton

Ooh boy, where are you now?
You came and you rescued me when I was down
Now I'm shadowless, life is such a mess
Where did we go wrong
Impossible to see, I'm supposed to be
'Cause my light is gone
Gotta make it right with you, you baby
So tell me what I gotta do
To make you come back home
Ooh boy, how can this be?
I remember every second, you were here with me
Now I'm shadowless, think I was once blessed
And just to have you by side, yeah yeah
But then you went away and suddenly the rain
Washed away my sunny skies, ooh yeah
Gotta make it right with you, you baby
So tell me what I gotta do, yeah yeah yeah
To make you come back home
Gotta make it right with you, you baby
So tell me what I gotta do
To make you come back home
'Cause I'm running down a street
Trying to find the answers
When I'm feeling incomplete
See the truth is what I'm after
Why'd you go, yeah? Why'd you leave?
Took the reflection from me
Gotta make it right, yeah, so right baby, yeah yeah yeah
So tell me what I gotta do, baby yeah
To make you come back home
Gotta make it right with you, yeah yeah yeah, you baby, yeah
So tell me what I gotta do, do, do
To make you come back home
