Cherry Waves

Deftones

A sea of waves
We hug the same plank
Just as I rehearsed
Over an hour break
The waves suck you in and you drown
If like you'd just stay down with me
I'll swim way down with you, you
You hang the anchors
Over my neck
I liked it at first
But the more you laugh, crazy, okay

The waves suck you in and you drown
If like you'd just stay down with me
I'll swim way down with you
Is that what you want? With you
Is that what you want?
If like you'd just stay down with me
I'll swim way down with you
Is that what you want? With you
Is that what you want? With you, you
