

# Don't Fall In Love

## Still Corners

Please don't look around for anybody else  
Why don't you concentrate on yourself  
Someone's gotta say that it's okay to feel alone  
You're not a freak you dont need helpEverybody wants to fall in love, not me  
Everybody wants to fall in love, not meAnd when the radio  
Plays a love song  
Something that you should know  
They're all wrongEverybody wants to fall in love, not me  
Everybody wants to fall in love, not me  
Everybody wants to fall in love, not me  
Everybody wants to fall in love, not meAll your friends got someone else they hang out with  
And now you want your someone else too  
But to me it all seems that they breakup just to makeup  
They got nothing to doSo why don't you consider just eliminate it  
All the fuzz and fighting around  
I'm not trying to tell ya what to do  
Just wanna pick you up 'cause you're downHeres something they're never gonna tell ya  
I kinda figured it out  
As much as people wanna love ya  
Theyll always wanna try to bring you downEverybody wants to fall in love, not me  
Everybody wants to fall in love, not meAnd when the radio  
Plays a love song  
Something that you should know  
They're all wrongEverybody wants to fall in love, not me  
Everybody wants to fall in love, not me  
Everybody wants to fall in love, not me  
Everybody wants to fall in love, not meI'm not gonna fall for it
