

Lightspeed

Fox Stevenson

Good day can I be of assistance?
It seems like everything stayed the same
But then ended up different
Somehow
Well I took the initiative
Or maybe baby I just think I did
I can't help struggling with my afflictions We gotta move faster than light while
We're dealing with these demons inside while
I've got this feeling that we're going
Down down down We're moving faster than lights and
We're dealing with these demons inside so
Where are the ones who made us now!? Maybe we got to do better
Maybe we've got to do it together and
Maybe we lost our way somehow
And maybe maybe means never Maybe we got to do better
Maybe we've got to do it together and
Maybe we'll find our way back down
And maybe maybe means never We gotta move faster than light while
We're dealing with these demons inside while
I've got this feeling that we're going
Down down down down We're moving faster than lights and
We're dealing with these demons inside so
Where are the ones who made us now!? Maybe we got to do better
Maybe we've got to do it together and
Maybe we lost our way somehow
And maybe maybe means never Maybe we got to do better
Maybe we've got to do it together and
Maybe we'll find our way back down
And maybe maybe means never Good day can I be of assistance?
It seems like everything stayed the same
But then ended up different We gotta move faster than light while
We're dealing with these demons inside while
I've got this feeling that we're going
Down down down down We're moving faster than lights and
We're dealing with these demons inside so
Where are the ones who made us now!? Good day can I be of assistance?
It seems like everything stayed the same
But then ended up different
Some how

Well I took the initiative
Or maybe baby I just think I did
I can't help struggling with my afflictions
