

Just a Little Spirit

Fort Lean

I know that your friends they're out of touch
And I don't think that you would go to any place although it's far from us
I don't wanna roughens here
I don't wanna make you scared
Just wanna see a little spirit
I just wanna go
Can't I be any more clear
I just wanna rough
For that it here, I just wanna go
I know that it's all been too much
Stumbling at her spared eyes to set throughout to say it's rough
I don't wanna roughens here
I don't wanna make you scared
Just wanna see a little spirit
I just wanna go
Can't I be any more clear
I just wanna rough
For that it here, I just wanna...
I don't wanna roughens here
I don't wanna make you scared
Just wanna see a little spirit
I just wanna go
Can't I be any more clear
I just wanna rough
For that it here
For that it here
I just wanna go.
