

Friend

Baby Strange

Get back to my friend I don't wanna see you round here again

Ooooooh oh oh

She'll kiss anything

she's got a heart and they've got two legs

she wants to get a life

she's got no place to go

She'll kiss anything

give her the eye and she'll take you home

you want her alot but she's not safe here I know

Get back to my friend

I never wanna see you round here again

Ooooooh oh oh

i wanna run run, never please

i can't eat if the girls can't eat

it's alright, it's alright to me

i tell her run run, but she's never gonna leave

the girl won't go the girls not pleased

forgotten her name i think she stole my keys

Get back to my friend

I never wanna see you round here again

Ooooooh oh oh

Get back to my friend

I never wanna see you round here again

Ooooooh oh oh

Get back to my friend

I never wanna see you round here again

Ooooooh oh oh

Get back to my friend

I never wanna see you round here again

Ooooooh oh oh
