Dealer

Gemini Club

I seize your call
Though even when you come at night
I saw your minions behindThe seas they come
The way when I hold out
To see your minions behindThe screams will never side
With my hands bound on the floor
Too hard to see,
I'm too hard to sayWhen I was young
I can't be right, I said it reflexive and
I fall down too hard on the pavement
If my sight strung down to stop meWandering, waiting, stride on the pavement
All I see is electricity nowBreaking through the winter cold
And I was on the doorstep
Waiting for the lights to break that storm out of your eyes
Before I leave you behindPleasePlease
Wipe the shame off of your face
And drive and leave this behind my door
I'm waiting for the car to pull
Up and I could hardly waitI've washed these hands of all I've done
I watched these crumbling walls just stung
I wish that you would be my gun
I walked out firing, let it
