Radio

Santigold

Rack 'em up and stack 'em, stack 'em while I got 'em
Knock 'em back and drag 'em look at me, I stole 'em
(Look at me, I stole 'em, look at me, I stole 'em)
(Look at me, I stole 'em, look at me, I stole 'em)
Body made of platinum, rope full let me at 'em
Cause I'm on top, oh, buffalo stancin'
(Body made of platinum, body made of platinum)
(Body made of platinum, buffalo stancin')I remember the time, remember the time
Private on the wings from the get go
But I put in the time, I put in the time
I never was afraid, never let go
I remember the time, remember the time
Private on the wings from the get go
But I put in the time, I put in the time
I never was afraid, never let goI'ma run up on the radio
Ambush the scene, oh, and you 'bout to know
I'ma run up on the radio
Ambush the scene, oh, and you 'bout to knowAin't no carbon copy, take a picture of it
Put it on the big screen, I don't give a
(Take a picture of it, take a picture of it)
(Take a picture of it, take a picture of it)
I say what I want to, say what I mean
Living in your mind now, I'm living in your dreamI remember the time, remember the time
Private on the wings from the get go
But I put in the time, I put in the time
I never was afraid, never let go
I remember the time, remember the time
Private on the wings from the get go
But I put in the time, I put in the time
I never was afraid, never let goI'ma run up on the radio
Ambush the scene, oh, and you 'bout to know
I'ma run up on the radio
Ambush the scene, oh, and you 'bout to knowBetter dial up the static
If you want, I'm looking at it
Be my number one fanatic
While I keep making classics
Better dial up the static
I'm a mother wreaking havoc
Big drippy I'm a grab it

Zooming through a sea plasticI'ma run up on the radio
Ambush the scene, oh, and you 'bout to know
I'ma run up on the radio
Ambush the scene, oh, and you 'bout to know
