

Over My Head

[Jon Pardi](#)

She's a cool breeze in the summer
A hot flame in the winter
The kind of angel that will bring out the devil in you
She's a gypsy on the move
Never wanna see her go
And I'm right where she left me the first time
With that same no good goodbye
And now I'm

Sittin' here wishin' that I wasn't missin'
That girl I just can't tame
A love that just won't fade
A heart that's bound to break
Yeah I shoulda known better the moment I let her love me
I fell back in
Now I'm under her spell and over my head again

She's a rollin' river and I'm her waterfall
I just keep on crashin' and at the bottom of it all
There's something holdin' on, something stayin' strong
Yeah keepin' us doin' what we've been doin' all along
But I'm back to

Sittin' here wishin' that I wasn't missin'
That girl I just can't tame
A love that just won't fade
A heart that's bound to break
Yeah I shoulda known better the moment I let her love me
I fell back in
Now I'm under her spell and over my head again

I'll answer her calls
Yeah anytime, anywhere
Baby you know I'll be there
Yeah and I'm back to

Sittin' here wishin' that I wasn't missin'
That girl I just can't tame
A love that just won't fade
A heart that's bound to break

Yeah I shoulda known better the moment I let her love me
I fell back in
Now Iâ€™m under her spell and over my head again
Yeah Iâ€™m under her spell and over my head again
