

# Climb Out Your Window

## Walk Off the Earth

You never hear it on the radio  
You never see it in the video  
They never play it at the disco  
So watch out we play it everywhere to go  
They try and change our ways  
Our love, our faith, our home, our heads  
We play it everywhere we go  
We play it everywhere we go  
Can't record it in the studio  
You can't get it with the logo  
You can't ride it at a rodeo  
So watch out we ride it everywhere to go  
Don't try and change our ways  
Our love, our faith, our home, our heads  
We play it everywhere we go Wake up, wake up now, today  
There's nowhere we can't go  
Wake up, wake up now  
Hey people, climb out your window  
We sing it everywhere we go  
We sing it everywhere we go  
Wake up, wake up now  
Let's go, climb out your window You can eat it like an oreo  
You can lay it like a domino  
You can love it like a Romeo  
Watch out, we love it everywhere we go  
Come out we'll make out way, our love, your faith, our home, our heads  
We play it everywhere we go Wake up, wake up now, today  
There's nowhere we can't go  
Wake up, wake up now  
Hey people, climb out your window  
We sing it everywhere we go  
We sing it everywhere we go  
Wake up, wake up now  
Let's go, climb out your window  
It's got be time you climb out your window  
It's got be time you climb out your window You never hear it on the radio  
Watch out we play it everywhere we go Wake up, wake up now, today  
There's nowhere we can't go  
Wake up, wake up now

Hey people, climb out your window  
We sing it everywhere we go  
We sing it everywhere we go  
Wake up, wake up now  
Let's go, climb out your window  
It's got be time you climb out your window  
It's got to be time you climb out your window  
It's got be time you climb out your window  
It's got to be time you climb out your window  
Let's go, climb out your window
