

Hold Me Down

Foreign Fields

I know when you're hard against
When you're hard against
Hard against the one I'm close to the end again
When I try the edge
A thousand feet below You can't keep holding me down
When I'm already
I'm already gone You can't keep on holding me down
When I'm already
I'm already gone I know you're from the good side
When I feel my eyes
I feel it in my eyes
I cannot give you this
You cannot harmonize alone
You're singing on your own
You're singing on your own tired [?] You're singing on your own You can't keep holding me down
When I'm already
Already gone You can't keep on holding me down
When I'm already
I'm already gone You can't keep on holding me down
When I'm already
I'm already gone You can't keep on holding me down
When I'm already
I'm already gone
When I'm already
I'm already gone (Already, already gone)
(You can't keep on holding me down)
(When I'm already)
(I'm already gone)
(You can't keep on holding me down)
(When I'm already)
(I'm already gone)
