

Boys For Life

B2k

Yo, why y'all had to bring this up man?
I mean it ain't like I forgot but
It's like I wouldn't thinkin' about it man
But now that you wanna talk about it
You got me all watery in the eyes, you know
But ah, it's all good
I wanna tell y'all three man
I love y'all like y'all love me
But if y'all know what we talkin' bout
Fizz holla at ya boy
For the first three years, we was on coat fax
No deals, no money but everybody had our back
We knew it would happen and that was for a fact
Until then we was watching Cosby's in the laundry mat
Scounagin' up change for a meal at Pizza Guy
No ride to Roscoe's, we made our own sunrise
Gettin' sick off cheetos, skittles and benekos
Mark yellin' 'cause we eat his last taqeto
Wishin' for a bank account with at least two zero's
Playin' ball all day, sharin' one Gatorade
No dogs of our own so we walked Bear and Jane
Playin' B-B bridges hoppin' over gates just to go swimmin'
Yeah we was bad
Tryin' a holla at older women, huh man
Times was hard, you know we didn't get to much
But we always had each other man that was enough
We've been through thick and thin but we still here
No matter what goes down we are still friends till the end
Ups and downs yeah, that's a hard knock life
Yeah it's ride or die 'cause we're boys for life
Ya heard
We've been through thick and thin but we still here
No matter what goes down we are still friends till the end
Ups and downs yeah, that's a hard knock life
Yeah it's ride or die 'cause we're boys for life
Ya heard
It's gettin' hard now, what are we to do now?
Years is passin' it's time to make moves now
We got our act together faced the bad weather

Told ourselves it was either now or never
So we grabbed our stuff and started shoppin' at labels
Performed demos and did whatever it takes, damn
Every label slammed the door in our face
But we kept our heads up until we found the right place
Ya know

We've been through thick and thin but we still here
No matter what goes down we are still friends till the end
Ups and downs yeah, that's a hard knock life
Yeah it's ride or die 'cause we're boys for life
Ya heard

We've been through thick and thin but we still here
No matter what goes down we are still friends till the end
Ups and downs yeah, that's a hard knock life
Yeah it's ride or die 'cause we're boys for life
Ya heard

We found a home it's on we in the game now
Chris and Max done made this thing crack now
We workin' with Tommy and Polly and D.Mack now
Took us a while but we got a name now
A platinum album with doe up in the bank now
No more loungin' around, we businessmen now
Epic helped us and put us in the right gear
Video and radio thanks for the great year
I'm glad the time it took was a struggle
So that when this time came we'd be grateful and humble
We thank God for makin' all this happen for us
We thank all our fans for havin' love in us
So come on

We've been through thick and thin but we still here
No matter what goes down we are still friends till the end
Ups and downs yeah, that's a hard knock life
Yeah it's ride or die 'cause we're boys for life
Ya heard

We've been through thick and thin but we still here
No matter what goes down we are still friends till the end
Ups and downs yeah, that's a hard knock life
Yeah it's ride or die 'cause we're boys for life
Ya heard

I know that your watchin' over me
Thank God that you brought the joy to me
Now B2K has a story
I love y'all just like y'all love me
I know that your watchin' over me
Thank God that you brought the joy to me

Now B2K has a story
I love y'all just like y'all love me
I know that your watchin? over me
Thank God that you brought the joy to me
Now B2K has a story
I love y'all just like y'all love me
