Come Into Our Room

Clinic

Candlelight and all things bright
Come into our room
Candlelight and all things bright
Come into our roomNow now the winter glowsSee the leaves beneath the trees
Come into our room
See the leaves beneath the trees
Come into our roomNow now the winter glows
Now now the winter glows
It's wonderful, no it's wonderful with youSnug as bugs inside your love
Come into our room
Snug as bugs inside your love
Come into our roomNow now the winter glows
Now now the winter glows
Now now the winter glows
It's wonderful, no it's wonderful with youFinger bobs has wolfed the lot
Come into our room
Finger bobs has wolfed the lot
Just come into our roomNow now the winter glows
Now now the winter glows
Now now the winter glows
It's wonderful, no it's wonderful with youCome into your room
Come into your room
Come into your roomCould you come into your room?
So could you come into your room?
Would you come into your room?
