Long Time Nothing New

Pete Yorn

Same old town
Loose sense surround me
Always drags you down
Don't let it get you downSame four walls
Don't mean anything
To anyone
'Cos all you care about
Was to see yourself break outI've seen you this way before
Life's strained but true
Well, what are we waiting for?Long time, nothing new
Long time, nothing newI'm here...
I'm here...
I'm here...
