

St John's Wood Affair

Nirvana

Mother closed the bathroom door you said you've seen it all before when you were sweet sixteen
Daughter don't you get upset you're not too old to learn yet while you are in-between People you don't seem to
care if what you breathe is tin canned air you've got to compromise
Vicar would you like some cake you're sure you're not too bad mistake I think you're in disguise As I grow
older going too far down the road

Up St John's Wood where I read on the notice board
That God is by my side all the time Hello God, would you like to take a walk
Maybe we can have a talk, maybe I can fix you up
Maybe you can send me down
C'mon God, let's go to town
Hello God, would you like to take the train
Just relax and stop the rain
Stop the rain from pouring down
Surely you won't see me wrong

C'mon God, you must be strong You refuse to stop the rain and I refuse to catch the train no need to get excited
Don't blame me for what I do cause baby I'm fed up with you but somehow feel delighted As I grow older going
too far down the road

From St John's Wood where I read on the notice board
That God is by my side all the time Hello God, would you like to take a walk
Maybe we can have a talk, maybe I can fix you up
Maybe you can send me down
C'mon God, let's go to town
Hello God, would you like to take the train
Just relax and stop the rain
Stop the rain from pouring down
Surely you won't see me wrong
C'mon God, you must be strong
