Too Daze Gone

Ratt

Walkin' through the streets just the other day
Caught up in the traffic, I can never get away
Runnin' here, runnin' there, no satisfaction anywhere
I do my work, ain't enough anymore
It takes the mornin' after to forget the night beforeToo daze gone, too daze gone
I'm broke down, insufferable
My mind is on the blink
It's later than you think
And I'm too daze goneWent to see a friend just the other day
Had a drink or two and we blew the night away
Takin' in another show, how we live I'll never know
I can't remember the things that we said
Now all I got is this achin' in my headToo daze gone, too daze gone
I'm broke down, insufferable
My mind is on the blink
It's later than you think
And I'm too daze goneGone through the games that you want me to play
Gone past the rules that you put in my way
Racin' past your limit, ain't no right and wrong
Past the point of carin', too daze goneOoh
Yeah, yeahCouldn't raise my head just to save the day
I do my penance, try to keep the world at bay
Outta sight, outta mind, ills you don't expect to find
I learned my lesson a thousand times too
Don't make no impression, one thing I can doToo daze gone
Too daze gone
Too daze goneSay I, too daze gone
Too daze gone
Too daze gone
Talkin' about it, too daze gone
