

I Wanna Go There

Tyrese

Yo, I wanna go there
I wanna take you there, just be ready Sit back and relax let me do my thang
I'm about to go there for that old time swing
Anything that you want anything you desire babe
Just let me know 'cause you light my fire lady I can tell that you want me tonight
All I came to do is make it right
Let's get sweaty in front of the fireplace
It's on, bring it on, 'cause I'm ready I wanna go there witchu
And do all the things no one would do
I wanna go where no one has been
I wanna go there witchu I wanna go there witchu
And give you everything you need me to
I wanna go where no one has been
I wanna go there witchu Girl I know that this is new but keep an open mind
After I do this once your gonna want it all the time
Girl you got me babe, long as you keep it real
I see you like the appetizer here's the main course meal I can tell that you want me tonight
All I came to do is make it right
Let's get sweaty in front of the fireplace
Oh baby you're all I want and need I wanna go there witchu
And do all the things no one would do
I wanna go where no one has been
I wanna go there witchu I wanna go there witchu
And give you everything you need me to
I wanna go where no one has been
I wanna go there witchu The temperature is right and all I came to do is make you feel alright
'Cause I came to please your body please your body
The way that we made love made me forget that it was me
And your first night and I wanna go there, I wanna go there I wanna go there witchu
And do all the things no one would do
I wanna go where no one has been
I wanna go there witchu I wanna go there witchu
And give you everything you need me to
I wanna go where no one has been
I wanna go there witchu Should I lick my lips?
Should I grab on them hips?
Should I start to do it real slow?
And go where no one else could go Should I try to make you sweat?
Should I try to take you all the way there?

Should I try to make you bust once or twice?
Girl I'm gonna give you bragging rights I wanna go there witchu
And do all the things no one would do
I wanna go where no one has been
I wanna go there witchu I wanna go there witchu
And give you everything you need me to
I wanna go where no one has been
I wanna go there witchu Do you want it baby?
Do you need it baby?
'Cause I need you
