

Earth to Angel

[Rick Springfield](#)

Well, my girl, you're a complicated mess
I love you, but I really must confess
It drives me crazy when I'm seeing
That the good times are all passing you by
You seem like a damsel in distress
If I could make an educated guess
I'd say your well is running dry
In this world of frustration
You need affirmation
Love needs no translation
What it's all about
It's time to shout out Earth to angel
Find your happiness inside
This day could be your last
Enjoy the ride
Why does it have to take a miracle
Or a providential sign
To even the big score
So what is it all for
If we don't have a good time?
Looks like you threw away your party dress
And you miss the sweet smell of success
I could be crazy, but I really need to take five
From always seeing you cry
In a blink, you could be drowning in the red
And I think they'll be coming for your bed
You say life sucks and then you die
But I think, in times of frustration
And alienation
Love needs no translation
Yeah there is no doubt
It's time to call out Earth to angel
You're so beautiful inside
These days are flying by
Enjoy the ride
Why does it have to take a miracle
Or a providential sign
To even the big score
So what is it all for
If we don't have a good time?
Earth to angel
Seems you're never satisfied
You go down swinging

At least you know you tried
Why does it have to take a miracle
Or providential sign
So what is it all for Earth to angel
You're so beautiful inside
These days are flying by
Enjoy the ride
Why does it have to take a miracle
Or a providential sign
To even the big score
So what is it all for
If we don't have a good time? Earth to angel
You can run but you can't hide
This day could be your last
Enjoy the ride
Why does it have to take a miracle
Or a providential sign
To even the big score
So what is it all for? Getting down to the hardcore
Come on, open the front door
And we can all have a good time
Come on, we'll all have a good time Earth to angel
Earth to angel
Earth to angel
Yeah, beautiful time
