

# Until We Go Down

Ruelle

And I feel it running through my veins  
And I need that fire just to know that I'm awake  
Erased, I missed till the break of day  
And I need that fire just to know that I'm awake

Until we go down  
Until we go down  
Until we go down  
Until we go down

And I feel it running through my veins  
And I need that fire just to know that I'm awake
