Love You

Kevin Gates

I got a heart that's full of love
With so much love to give [x2]
[Chorus]I got a stupid house that's empty when I'm out on leers
When you're in love who gives a fuck about a non believer
When the lights go down and you're looking around
Now you're asking yourself who's gonna love you (Ohh ohh Ohh)
Alleviate your clothing and make your body turn around.
(Now you're asking yourself who's gonna love you.)
[Verse 1]Shes a murderer
When I Hurt it aches
Shes has an hourglass figure and a perfect shape
Breaking my feelings she contributes to the murder rate
Went to jail shes dripping from the symptoms I have no escape
This no facade Peter tange in my cigar
The way I move may be peculiar to people I come across
Stress! This confession forever you in my heart
Wish you the best, in whatever endeavors that your embark
GATES!
[Bridge]I got a heart that's full of love
With so much love to give
I often picture us together married with some kids
Victims of a broken promise you know what it is
(And all of your friends know I'm a gangsta!)
You can tell is obvious I live a fly life!
Wishing I was there to lay onside of you at night!
You can tell is obvious I live a fly life!
I pray that heaven comforts you, so you should be alright.
[Chorus]
I got a stupid house that's empty when I'm out on leers
When you're in love who gives a fuck about a non believer
When the lights go down and you're looking around
And you're asking yourself who's going to love you (Ohh ohh Ohh)
Alleviate your clothing and make your body turn around.
(Now you're asking yourself who's gonna love you.)
[Verse 2]Making fast moves backwards, fatal attractions
Ill forever be your slave
I be caged up and captured
Drugs don't really ever make the problem shrink
But they don't release the endorphins that help me not to think!

Suicide contemplated irrational way of thinking
Attach a brick to my ankle and throw me over the deep end
Sleep in, weekend
Ugh I don't go to clubs ask me any question and I might respond with shoulder shrugs
Connected to eternity when forces take control of us
Lucas Brasci get it in You should know whats up
Do this every time I'm the life of the party!
Know its got a name but I don't know what to call it!
[Bridge]You can tell is obvious I live a fly life!
Wishing I was there to lay onside of you at night!
You can tell is obvious I live a fly life!
I pray that heaven comfort you so you should be alright, alright.
[Chorus]I got a stupid house that's empty when I'm out on leers
When you're in love who gives a fuck about a non believer
When the lights go down and you're looking around
And you're asking yourself who's going to love you (Ohh ohh Ohh)
Alleviate your clothing and make your body turn around.
(Now you're asking yourself who's gonna love you.)
