

Written in Sand

[Santana](#)

Your eyes are the color of the sea
You look my way and the waves wash over me
Your body shivers with the fading light
And you say, baby, lets just make it last tonight
And when the morning comes
You take me by the hand
And say, our love is written in sand
Written in sand
We hear the ocean roar
Were swept away on to some distant shore
You whisper secrets of the heart
They keep us close when the world keeps us apart
Until tomorrow comes
Time is on our hands
Because this love is written in sand
Written in sand
Nothing lies between a woman and a man
When their love is written in sand
When their love is written in sand
When their love is written in sand
Written in sand
Written in sand
...
