

Hurry Home

Good Lovelies

When the nights grow long
Birds stop singing songs
And the summer fades to gray
All the leaves around
Have fallen on the ground
And know that winters on its way

When the cold wind blows
Honey I donâ€™t know
How much longer I can wait
It wont be long my dear
Til Christmas day is here
So promise me you wont be late

I donâ€™t need no diamond rings
I donâ€™t need no fancy clothes
All I need is you with me
Underneath the mistletoe

Donâ€™t need no big surprise
Please donâ€™t spend a dime
Donâ€™t need the mountains or the sea
If I could have my way
Id wish for you to stay
And be with me all through the year

All I need is you with me
Underneath the mistletoe

Ill sit up all night long
And wait til you come home
So I can have you close to me
Ill pull your body near
So hurry home my dear
And be with me on Christmas Eve

When the cold wind blows
Honey I donâ€™t know
How much longer I can wait
It wont be long my dear

Til Christmas day is here
So promise me you wont be late

I donâ€™t need no diamond rings
I donâ€™t need no fancy clothes
All I need is you with me
Underneath the mistletoe

I donâ€™t need no diamond rings
I donâ€™t need no fancy clothes
All I need is you with me
So promise me you wont be late
Just promise me you wont be late
