## Shadows Fall

Toppling building blocks at the base of all mankind  
Redirection of evolution, electromagnetic control of the mind  
Arising from technology, creation, new entity  
Mankind, forever be bound and gaggedA new breed of control, manipulation of space and time  
Warped perception dictating action, sick delusion they're divine  
Arising from technology, creation, a new entity  
Mankind, forever be bound, and gaggedMechanically possessed, placed under control  
They keep us marching  
Mechanically possessed, placed under control  
They keep us marchingA conspiracy unwinds as the government denies  
Lost children pays the price, suffocated by their lies  
Arising from technology, creation, a new entity  
Mankind forever be bound, and gaggedToppling the building blocks, t the base of all mankind  
Redirection of evolution, electromagnetic control of the mind  
Arising from technology, creation, a new entity  
Mankind, Forever be bound, and gaggedMechanically possessed, placed under control  
They keep us marching on  
What did they hope to find? What did they hope to gain?  
What did they hope to find?  
And what has become, they kept us bound and gagged
