

# I Love You, That's All

Tracy Byrd

I don't need to go on pretending  
I don't need the key to your door  
Why would I leave goodbye open-ended  
That's not what goodbye is for Now I don't have one thing against you  
You're breakin' my heart not the law  
The angel I made you into had to fall  
I'll miss you I love you that's all Sometimes I get sentimental  
But what would I say if I called  
I feel like I'm caught in the middle  
Somewhere between flyin' and takin' a fall Now I don't have one thing against you  
You're breakin' my heart not the law  
The angel I made you into had to fall  
I'll miss you I love you that's all
