

Tangerine

Feeder

Tangerine turning green
Cellophane window pane
Socialize paralysed
Plastic faces suck me dryTangerine
Tangerine
Tangerine
TangerineI know it's sad
Life's just a piece of fruit
Touch down, new ground
Stop livin' on the moon
I know it's sad
Life's just a piece of fruit
Touch down, new ground
Stop livin' on the moonTwentyeight suffocate
Take a ride see me fly
Detonate, feel it break
See myself disintegrateTangerine
Tangerine
Tangerine
TangerineI know it's sad
Life's just a piece of fruit
Touch down, new ground
Stop livin' on the moon
I know it's sad
Life's just a piece of fruit
Touch down, new ground
Stop livin' on the moonSee it as I climb
The rain burns in my eyes
So catch me as I fall awayTangerine
Tangerine
Tangerine
TangerineI know it's sad
Life's just a piece of fruit
Touch down, new ground
Stop livin' on the moon
I know it's sad
Life's just a piece of fruit
Touch down, new ground
Stop livin' on the moonI know it's sad

Life's just a piece of fruit
Touch down, new ground
Stop livin' on the moon
I know it's sad
Life's just a piece of fruit
Touch down, new ground
Stop livin' on the moon
I know it's sad
