## **Tangerine**

## **Feeder**

Tangerine turning green
Cellophane window pane

Socialize paralysed

Plastic faces suck me dryTangerine

Tangerine

**Tangerine** 

TangerineI know it's sad

Life's just a piece of fruit

Touch down, new ground

Stop livin' on the moon

I know it's sad

Life's just a piece of fruit

Touch down, new ground

Stop livin' on the moonTwentyeight suffocate

Take a ride see me fly

Detonate, feel it break

See myself disintegrateTangerine

**Tangerine** 

Tangerine

TangerineI know it's sad

Life's just a piece of fruit

Touch down, new ground

Stop livin' on the moon

I know it's sad

Life's just a piece of fruit

Touch down, new ground

Stop livin' on the moonSee it as I climb

The rain burns in my eyes

So catch me as I fall awayTangerine

Tangerine

Tangerine

TangerineI know it's sad

Life's just a piece of fruit

Touch down, new ground

Stop livin' on the moon

I know it's sad

Life's just a piece of fruit

Touch down, new ground

Stop livin' on the moonI know it's sad

Life's just a piece of fruit
Touch down, new ground
Stop livin' on the moon
I know it's sad
Life's just a piece of fruit
Touch down, new ground
Stop livin' on the moon
I know it's sad
