

Anytime, Anywhere

Burning Image

If you want what's best
But you don't have everything
But you'll take from me, yeah
Say, just one surprise If you feel like, like you want to go
You, don't you want to stay?
So, do you want anything? Yeah! You want! You cry! You watch! I represent indulgence, to feed our vital
existence
Undefined wisdom, instead of self-deceit
Responsibility to the responsible, do what thou wilt!
For your gratification, do what thou wilt You, say, I'm so, like you, same soul If you want what's best
But you don't have everything
But you'll take from me, yeah
Say, just one surprise And you feel like, like you want to cheat
Say, that you want to go, sure
Anytime, Anywhere, yeah You want! You cry! You watch!
