

Supa Love

Guru

Yeah, baby, last night was, you know
I mean, when you touched me
I couldn't believe it was, oh, baby
You don't know what you did to me, baby Supa love, baby, you know you's a trooper love
You's a dove, I hold you truly above
All the pigeons, chicken heads, gold diggers an' them
You got it goin' on, your game's bigger than them Take me back to the sensual feelings, your sexual healin'
Soothes me, after a day of business dealings
What you wearin'? I know you look good, you even cook good
An' I'ma steal your love like a crook would, watch me You must be out of your mind if you think you're gettin'
away
What you did to me last night, baby, you've gotta stay
I understand there's other places you must go
But there's one thing you gotta do, baby, before you go So gimme that love, love, that supa love
The kind that keeps you all day dreamin' of
That's top rhythm flirt
Still feels good when you know it would
Love, that supa love
The kind that keeps you all day dreamin' of
Love, chocolate love, melt it down with me There's not a problem that I can't fix
Not a hot track, that I can't flip
There ain't no sex style, that you can't pick
After my supa love, you'll be like you can't switch You'll be hooked, shook 'cause you took the time out
To let me have your body plus turn your mind out
I was caressin' you tight, blessin' you right
You was suggestin' to continue that, all last night The best love, check how I do it with finesse love
Swing it with me, go on an' put me to the test love
I'ma do the same to you
An' make sure you're takin' care of the job you came to do I can't get it outta my mind, what you did to me
yesterday
Baby, this is so not right, it's unfair how you play
What you did to my heart, to you it's just so so
But there's one thing you gotta do, baby, before you go So gimme that love, love, that supa love
The kind that keeps you all day dreamin' of
That's top rhythm flirt
Still feels good when you know it would
Love, that supa love
The kind that keeps you all day dreamin' of
Love, chocolate love, melt it down with me Do you remember, what I did when you walked in the door?

Huh, yeah, I know you do, ooh, last night was so good, baby
Will you touch me again? You know, right there So gimme that love, love, that supa love
The kind that keeps you all day dreamin' of
That's top rhythm flirt
Still feels good when you know it would
Love, that supa love
The kind that keeps you all day dreamin' of
Love, chocolate love, melt it down with me So gimme that love, love, that supa love
The kind that keeps you all day dreamin' of
That's top rhythm flirt
Still feels good when you know it would
Love, that supa love
The kind that keeps you all day dreamin' of
Love, chocolate love, melt it down with me
