

# Violence (Hañsienda version)

## Pet Shop Boys

The sons and brothers  
fighting for another cause  
anything to give their lives some meaning  
busy with their guns and dreaming  
far away from here  
said they would act in self-defence  
And all the others  
running 'round so hot and bothered  
anything to give their lives some meaning  
in the evening  
running around with guns and  
said they would act in self-defence  
with violence  
Violence  
Violence  
Violence breeds violence  
Violence breeds  
The son and brother  
when he gets home  
he gives someone some love  
and mutters  
'Woman, you'll never understand  
I did what I said in self-defence  
with violence'  
Violence breeds violence  
Violence breeds violence  
Violence breeds violence
