

7 Weeks

Inme

Go

So you're still the same, there's nothing left in me
Do you really think that we could save this?
Now get off your feet and really do something
Do you really think it matters anyway?
You said that we were fine, you're lying all this time
You're the thorn that's in my side
7 weeks go by, it's so hard to say goodbye
Take your thorn
Take your pills, so you can feel more of this and more of me
Don't shut that door in my face
Do you really think it matters?
Do you really think it matters anyway?

You said that we were fine, you're lying all this time
You're the thorn that's in my side
7 weeks go by, it's so hard to say goodbye
Take your thorn out of my side
My side, my side
Take your thorn out of my side
My side, my side
Take your thorn out of my side
You said that we were fine, you're lying all this time
You're the thorn that's in my side
7 weeks go by, it's so hard to say goodbye
Take your thorn out of my side
Go
