Mystery

Electric Flag

I saw you walking down the street, just the other day
I just looked to ???? baby, why you ran away
And that is why-y-y, your love is just a mystery to me no-o-ow
Your mom told me to change, I guess I talked when you act strange

You donâ€™t care baby and you wonâ€™t play your game fair
You ???? just like a star, you act so bizzare
You ???? baby, why donâ€™t ya come on down
â€˜Cause I love ya baby, I need ya baby, I want ya by my side

And baby, come on back home and be my guide
And you must promise that youâ€™ll never go away, yeah
â€˜Cause our love is a here to stay, so come on baby

Tell my why-y-y your love is such a mystery to me now
Ya call me on the phone, late at night
To tell me to forget it baby, because deceiving you just ainâ€™t right
And that is why, your love is no longer a mystery to me now

My days have been a little brighter
My head feels a little lighter baby
And you told me just what I wanted to know
You said that your strange love will grow, so baby

Why was it all just a mystery to me now, yoah baby
She told me, baby donâ€™t cha, try to control me
Iâ€™m glad I love ya, I said I need ya, by my side, to be my guide
I want cha come on over, to come on
