

Sparkle

Feldberg

The chemistry was instant
The moment we met
I'm there in your daydreams
You teased me I laughed Is it real love or illusion
I can never decide
I'm lost in confusion
I've nowhere to hide Always something new It's the sparkle in your life
It's the sparkle in your life
It's the sparkle in your life My gaze are easy
So play me again
Feel the heat come closer
No need to pretend Always something new It's the sparkle in your life
It's the sparkle in your life
It's the sparkle in your life Always something new It's the sparkle in your life
It's the sparkle in your life
It's the sparkle in your life
