Lips n' Stuff

Les Savy Fav

I'll dance in my grave/every night
The space may be tight/but it's alright
Hey you and me/we're on our own
Burn our bones to ancient ash
While we've been waxed in coppertone.Don't know what pills we took
They've laid my impulse plain.
My body is a book and
you've been thumbing every page.You put it in,
in my head
but I want it
in my hand.Don't know what pills we took
They've laid my impulse plain.
My body is a book and
you've been thumbing every page.
I don't know where to look
I cannot hold your gaze.
Our eyes are filled with smoke
Because our bodies
are ablazeYeah it's a sin
but it's not bad
Hey it's worth it
for what I hadDon't know what pills we took
They've laid my impulse plain.
My body is a book and
you've been thumbing every page.
I don't know where to look
I cannot hold your gaze.
Our eyes are filled with smoke
Because our bodies
are ablazeLet's pretend we're innocent
We're just friends with benefits
We don't even say we kiss,
we just touch out lips up to our lips.
Let's pretend we're innocent
We're just friends with benefits
We don't even say we kiss,
we just touch out lips up to our lips.We're just taking baby sips
With fingertips and little slips
with little slips and little sighs

We'll sip until the well runs dry.
Let's be friends with benefits
You know we'd be into it.
I won't even say we kissed
we just touched out up to our lips 'n stuff.
