

# Bleed

## Blitz

Bleed, you are bleeding to death  
But from the outside, you look so good  
And inside, you've rotted away  
And you won't know until that day  
When we have drained you, it will be too late  
To save your skin and alter your face And a little time is all we need  
And now we are watching you bleed  
A little time is all we need  
And now we are watching you bleed, bleed Bleed, you are bleeding to death  
But from the outside, you look so good  
And inside, you've rotted away  
And you won't know until that day  
When we have drained you, it will be too late  
To save your skin and alter your face And a little time is all we need  
And now we are watching you bleed  
A little time is all we need  
And now we are watching you bleed
