Kettling

Bloc Party.

We smash the window
Po-po don't fuck around
As the camera take pictures of us
We just laugh, we laugh
Because they can't stop this
We can feel it in our bones
We can feel it in our, we can feel it in our
The future's ours, yes it is
We can feel it in our bones
We drop the lighter
Into the gas
If the whole world is watching us
Let them watch
Let them watch
Because they can't stop this
We can feel it in our bones

We can feel it in our
we can feel it in our
The future's ours
Yes it is
We can feel it in our bones
We can feel it in our,
We can feel it in our bones
Because they can't stop this
We can feel it in our bones
We can feel it in our,
we can feel it in
The future's ours,
Yes it is
We can feel it in our bones
We can feel it in our,
We can feel it in our bones
