

# Uh Huh

## ROMANS

Gotta take the shame from my back  
It's a hard enough life for the two of us  
We both know we're superstars  
I wanna take the blame, but I'll snap  
It's a hard enough life for two  
You are moving to different hearts I never said it could get easier  
Uh huh  
But when I'm gone, it will be easier  
Uh huh [x3]  
Uh huh, huh, huh, huh In the blink of an eye, it came undone  
I lifted that curse as I made the run  
And what was left fell right  
I watched the night begin to fall into the sun I loved you once; there was no other way out, oh  
I couldn't wait around and watch you fall out, oh  
I started running; I was starting to doubt now  
Too late to turn around  
The dust had settled down My mind's made up; you had me doubting myself now  
My mind's made up; love had me doubting myself now  
I've had enough of never knowing myself now  
Now I am turned around  
The dust had settled down I had to get away from your grip  
What a hard thing for me to do  
And we pretended for so long  
Voice screaming leave and not quit  
'Til I heard what it was telling me  
Tried to stay, but it pushed me on I never said it could get easier  
Uh huh  
But when I'm gone, it will be easier  
Uh huh [x3]  
Uh huh, huh, huh, huh In the blink of an eye, it came undone  
I lifted that curse as I made the run  
And what was left fell right  
I watched the night begin to fall into the sun I loved you once; there was no other way out, oh  
I couldn't wait around and watch you fall out, oh  
I started running; I was starting to doubt now  
Too late to turn around  
The dust had settled down...
