I Believe In Love

Matisyahu

And I remember when I was running after you
Can't keep up and you know it?s true
I know sometimes I?ve been down so blue
But it?s not about that ?cause you know what to do
Not about the he said, she said, you said, I said
Not about the show, not about the flow or the song I write
Early days and the late late night
I?m on my way to you
I?m on my way to you
I believe in love, sittin so high in the sea
I believe in love, not my reasons to be
Believe in love, yeah
Now I?m free
It?s not about the trains, or the planes or the automobiles
This is about the way that you make me feel
Swear of lies, this is something real
Said something but it?s time we heal

It?s not about the fast life in my past life
I asked you to be in my life
I know sometimes this love it cuts like a knife
But I want to end this strife
I?m on my way to you
I?m on my way to you
I believe in love, sittin so high in the sea
I believe in love, not my reasons to be
Believe in love, yeah
Now I?m free
I believe in love, sittin so high in the sea
I believe in love, not my reasons to be
Believe in love, yeah
Now I?m free
I believe in love, sittin so high in the sea
I believe in love, not my reasons to be
Believe in love, yeah
Now I?m free
