Never Get Enough

Cujo

Butterfly belly aches
Keep me up night and day
Radiate sunshine
And make it reverberate
Looking for a reason
Nothing but scraps of food
In the spirit of the season
All I want is to unwrap youI can't get enough of your love [x4]Get up on the table
And see if that works for us
Everything changes
Into nothing too outrageousI can't get enough of your love
(Never get enough)
I can't get enough of your love
I can't get enough of your love
(Never get enough)
I can't get enough of your loveCome on, come on, come on, come on
See it through your window
Come on, come on, come on, come on
Tomorrow's miles away
And the radio will play your song
It's been traveling forever
Come on, come on with me today
And let it lead the wayButterfly belly aches
Keep me up night and day
Radiate sunshine
And make it reverberateI can't get enough of your love
Never get enough [x4]
I can't get enough of your love
I can't get enough of your love [x3]
I can't get enough of your love
