French Kissin' Life

Kenny Chesney

Don't really know what day it is
Been rocking nine days in a row
All I know is it's hurricane season
And any minute she's gonna blow
I need a shave and I need some rest
I know some people are worried about me
But I'm French kissing life square in the mouth
Sailing out on the sea
Went through customs and immigration
Still this feels like home
I'm floating 'round through Gorda Sound
With a cooler and a bong
Maybe I could've been a pirate
Maybe in my next life that's what I'll be
French kissing life square in the mouth
Sailing out on the sea
Tonight I don't need to feel famous
Out here all I feel is free
French kissing life square in the mouth
Sailing out on the sea
Maybe I could've been a pirate
Maybe in my next life that's what I'll be
French kissing life square in the mouth
Sailing out on the sea
