Roswell

Holly Henry

I was kinda scared of going mad
I wasn't prepared for the brain i had
They say that normal is a made up word
To make daydream kids feel absurd

I thought a lot, wrote a lot, cried a lot
Fell in love, fell asleep and forgot

If UFOs aren't over Roswell
If spheric shuttles aren't in the desert
You best believe it doesn't mean they are not somewhere
If aliens with time warp portals
Don't want to spend their time with boring mortals
You best believe it doesn't mean they are not somewhere

Can you remember school?
I can't recall
Anything but rules
The same white walls

They always made us watch
Some movie
And still ask us why we're always glued
To our phone screens

The textbooks lacked everything but our brand
No ancient earth just 200 year old land

If ghosts don't dwell in graveyards
Or spirits speak through Ouija
You best believe it doesn't mean they are not somewhere
If aliens with time warp portals
Don't want to spend their time with boring mortals
You best believe it doesn't mean they are not somewhere
