Already Ready

Dan + Shay

[Verse 1]
Got a call from a friend
Said "you should come over
All your friends are already over"
Took you twenty minutes just to find a dress
You like the dress, you say yes
Green, red, yellow, blue
Yeah, they're all the style on you
Don't worry, you look beautiful
Hair up, hair down
Another twenty minutes to get out the house
Call a cab and we jump in it[Pre-Chorus]
Finally walk in
I'm already thinking 'bout leavin'
Gotta get you back
And I sure could get you out that dress
And out those shoes you like so much
Everybody at the party is checking out your body
I don't even mind it cause you're coming with me
And I know it's only 7:32
But looking at you[Chorus]
I'm already ready to go
I'm already ready, are you ready?
Cause I'm ready to go[Verse 2]
Wall to wall
Way too many people
The noise, the crowd
I don't need the scene
Cause I'm talking to you, you're talking to me
I'm not tryin' to be antisocial
Everybody's probably wondering why I was standing in the corner all alone
Girl, you're so beautiful, yeah
You look good in the lights, but I wanna see you in the dark
Kiss your lips, it's only been a minute since we've[Pre-Chorus]
Walked in
I'm already thinking 'bout leavin'
Gotta get you back
And I sure could get you out that dress
And out those shoes you like so much

And everybody at the party is checking your body out
But I don't mind it cause you're coming with me, girl
And I know it's only 7:32
But looking at you[Chorus]
I'm already ready to go
I'm already ready, are you ready?
Cause I'm ready to go, go[Bridge]
We're halfway out the door
I can't wait anymore[Pre-Chorus]
Yeah, I know we just walked in
I'm already thinking 'bout leavin'
Gotta get you back
And I sure could get you out that dress
And out those shoes you like so much
And everybody at the party is checking your body out
But I don't mind it cause you're coming with me, girl
And I know it's only 7:32
But looking at you[Chorus]
I'm already ready to go
I'm already ready, are you ready?
Cause I'm ready to go, go
Ready to go
I'm already ready to go
I'm ready to go
