

Music Sounds Better With You

Stardust

Ooooooh baby
I feel right
The music sounds better with you Love might
Bring us both together
I feel so good I feel right
The music sounds better with you Love might
Bring us both together Ooooooh baby I feel right
The music sounds better with you Love might
Bring us both together
I feel so good I feel right
The music sounds better with you Love might
Bring us both together 8x beat Ooooooh baby I feel right
The music sounds better with you Love might
Bring us both together
I feel so good I feel right
The music sounds better with you Love might
Bring us both together 8x beat Ooooooh! baby
I feel right
The music sounds better with you Love might
Bring us both together
I feel so good I feel right
The music sounds better with you Love might
Bring us both together Ooooooh baby
I feel right
The music sounds better with you Love might
Bring us both together I feel so good I feel right
The music sounds better with you Love might
Bring us both together Ooooooh baby
