Soulflayer

Angel Corpse

Firestorm within flesh
Carnivorous limpid eyes
Behind ecstatic lips
The crush of breath expiresProfanation - Violation
Hammering down war
Penetration - Suffocation
Lust infernal stormWarhead weeping wound
Orgasmic thrust one hundredfold
Flagellate ripping spine
One thousand cuts explodeLust infernal - soulflayerBlood exhale from back drawn lips
Hammer bring down war
Cruelty sucking at my steel
Lust infernal stormTorment fluids burn
Resurrect the suffering
Laid down torn apart
Soulflayer rises again
