Immortal Wounds

Forbidden

Millions of lost souls, envision them dead
Conscious deceivers
Follow the same light to endless impressions
Unconscious believersDelusions of grandeur, we lay them to rest
Ending your nightmare
Except your existence, there is no resistance
This is foreverMisplacing our feelings, we've lost all the meaning
Blinded illusions
Pushing our limits beyond comprehension
Breeding confusionDrift through space and time
Except our existence, there is no resistance
This is foreverImmortal wounds tear through the sky
Immortal wounds safe passage in time
Safe passage through time
